Total time _____

CDX Tasksheet Number: C242

1. Locate all of the brake warning light switches on the vehicle/simulator. Be prepared to point them out to your supervisor/instructor. Select one of the switches to demonstrate the proper testing procedure. List which switch you are testing:
2. Research the diagnosis procedure for the switch being tested.
3. Perform the tests on the designated switch and list the steps you took and the results for each:
4. Determine any necessary action(s):
5. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
