CDX Tasksheet Number: C601

Time off _____

Time on _____

Total time _____

1. Research the specifications and procedures for inspecting, testing, adjusting, and replacing the electrical/electronic components and sensors.

a. List or print off and attach to this sheet the procedure for inspecting, testing, adjusting, and replacing these components:

b. List any specified precautions:

2. Inspect the following components for proper operation and list your observations.

a. Computer:

b. Solenoids/relays:

c. Sensors/switches:

d. Terminals/connectors/harnesses:

3. Ask your instructor which components you should replace.

a. Computer: Yes: _____ No: _____

b. Solenoids/relays: Yes: _____ No: _____

c. Sensors/switches: Yes: _____ No: _____

d. Terminals/connectors/harnesses: Yes: _____ No: _____

4. Remove the appropriate component(s) following the specified procedure. List your observation(s):

5. Have your supervisor/instructor verify removal and your observations.
Supervisor's/instructor's initials: _____
6. Replace each component following the specified procedure.
7. Adjust each component following the specified procedure.
8. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
