1. **Connect the scan tool to the vehicle in accordance with the manufacturer's instructions; retrieve and record any diagnostic trouble codes:**

2. **List the monitor status for each OBD monitor:**

3. **List (or print off and attach) the freeze-frame data:**

4. **Clear codes when applicable. This may not necessarily be now.**

> **NOTE** Clearing the codes will also erase the OBD monitor status and freeze-frame data on most vehicles. Clear codes only when the service information directs you to do so.

5. **Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.**
