

► TASK Identify piston and bearing wear patterns that indicate connecting rod alignment and main bearing bore problems; determine needed action.

MAST
1C9

CDX Tasksheet Number: C729

Time off _____

Time on _____

Total time _____

1. Research the procedure and specifications for inspecting the piston and bearing wear patterns in the appropriate service information.
 - a. List, or print off and attach to this sheet, the faults and wear patterns for the various connecting rod and main bearing bore issues:

2. Following the specified procedure, visually inspect the pistons and bearings for abnormal wear patterns. List your observations:

3. Determine any necessary action(s):

4. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
