Total time _____

CDX Tasksheet Number: C740

1. Research all applicable pressure specifications and test procedure(s) for this transmission in the appropriate service information.
 - a. Line pressure: _____ psi/kPa
 - b. Governor pressure: _____ psi/kPa
 - c. Throttle pressure: _____ psi/kPa
 - d. Low-gear servo/clutch pressure: _____ psi/kPa
 - e. Second-gear servo/clutch pressure: _____ psi/kPa
 - f. Direct-clutch pressure: _____ psi/kPa
 - g. Cooler-circuit pressure: _____ psi/kPa
 - h. List any other pressure specifications off to the right side of the above specifications.

2. Perform the applicable transmission-pressure tests. Be sure to follow the specified procedures. Note that a scan tool may need to be used on electronically controlled transmissions. List your observations below.
 - a. Line pressure: _____ psi/kPa
 - b. Governor pressure: _____ psi/kPa
 - c. Throttle pressure: _____ psi/kPa
 - d. Low-gear servo/clutch pressure: _____ psi/kPa
 - e. Second-gear servo/clutch pressure: _____ psi/kPa
 - f. Direct-clutch pressure: _____ psi/kPa
 - g. Cooler-circuit pressure: _____ psi/kPa
 - h. List any other pressures off to the right side of the above readings.

3. Determine any necessary action(s):

4. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
