1. Research the following specifications for this vehicle in the appropriate service information.
 - a. Specified parking brake cable lubricant: _____
 - b. Parking brake adjustment: _____
2. Safely raise and support the vehicle on the hoist. Trace all parking brake cables to each wheel's brake assembly. Inspect the cables for the following defects and list the location and cause of the defect(s):
 - a. Wear: _____
 - b. Rusting: _____
 - c. Binding: _____
 - d. Corrosion: _____
3. Clean, lubricate, or replace cables as necessary and list the actions performed:
4. Check the parking brake adjustment (this could be counting clicks of the ratchet assembly). List your observations:
5. If the parking brake needs adjustment, perform that now.
6. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
