

► TASK Inspect auxiliary coolers; determine needed action.

MAST
1D11

CDX Tasksheet Number: C871

Time off _____

Time on _____

Total time _____

1. Research the auxiliary cooler testing procedure for this vehicle in the appropriate service information. Normally, the coolers are located either in front of the radiator or as part of the cooler end of the radiator.
 - a. List the auxiliary cooler(s) this vehicle is equipped with (and the type: air-cooled, liquid cooled, etc.):

 - b. List or print off and attach to this sheet the inspection and testing procedure for the cooler(s):

2. Closely examine the unit for leaks or damage that could develop into leaks under normal operating conditions. Make particular note of the condition of any tubes or hoses, and the condition of their fittings. List your test(s) and observation(s):

3. Determine any necessary action(s):

4. Return the vehicle to its beginning condition and return any tools that you may have used to their proper locations.

5. Have your supervisor/instructor verify satisfactory completion of this procedure, any observations found, and any necessary action(s) recommended.
